

UnderCAB

UnderCAB is a low profile, LED under cabinet lighting fixture. This fixture offers support for a wide variety of color temperatures, including 2700K, 3000K, 4000K and 6500K. It is designed for a wide variety of uses, including product displays, store fixture shelving, wine displays, bookcases and under countertops for dramatic lighting effects. CRI of 80+ or 90+ available with UnderCAB low profile or high profile with a clear or frosted flat lens. This addition to the liniLED® range includes every accessory for plug and play installation.
