# STRATUS®

Inground Drive-over Precast Patent pending

Overcoming the high cost and limitations of drive-over lines of light is now easy with Organic Lighting's® revolutionary buriable polymer concrete STRATUS® precast fixtures. The structural, self supporting fixtures can be installed in roadways, paths or stonework with the ease of installing pavers. STRATUS® fixtures lock together to form continuous illuminated straight or curved lines. Encapsulated, diffused LEDs are flood and typhoon proof with IP68 submersible sealed LEDs. Walk-over and drive-over applications support up to 10,000 PSI.

## Nothing but the best

- Highest quality
- Extreme environment tested
- Up to 100,000 hours lifetime

## 100% safe

- UL Listed to 2108 - submersible
- Circuit protects each LED individually

## Style and function

- Made for the outdoors with built-in drainage
- Self supporting - no secondary installation necessary
- Perfectly diffused illumination
- Continuous runs up to 50ft
- Low energy - 1.83W/ft.
- Supports up to 10,000 PSI

# YOU COULDN'T DO THIS...UNTIL NOW!

The reimagining of drive-over lighting

Willow Street Plaza | Fort Collins, CO

## Aqueon LED

Solving the problem of creating easily installed drive-over continuous linear lighting started with finding a solution to withstanding natural forces. Achieving this required lighting to match the longevity of the structure. They had to be flood proof, vibration proof, and capable of withstanding the harshest enviroments. Aqueon® is a new type of flexible light. Superior standards, new materials, new methods, military grade components and advanced circuit design. DMX programmable and streaming digital pixel models available.

\*more colors available

## Contractor Friendly Installation

Site prepared 3' or 4' long interlocking sections drop into place, connect and lock together. Numbered sections are delivered to site ready for installation. LED strip is slid in from one end while bearings guide it to the end of the run. Simple!

## Customizable

STRATUS® (patent pending) Inground pre-cast is available in custom shapes. Design details can be specified into lines, circles and curves. Special surface finishes and colors available. Now available in standard 2', 3', and 4' standalone fixtures options as well!
