

# ILLUMIGLASS®

PATENT PENDING

The IllumiGlass® LED-glass barrier system simplifies installation and maintenance, through integration of continuous 24V immersion proof LED lighting and slide-in lighting design. Laminated glass panels create glowing color effects, and feature ultra cool running replaceable LEDs. After a lifetime of 100,000 hours simply slide in a new LED strip, ensuring long term cost effective illuminated glass barrier solutions.

Available as white or color changing RGBW systems.

- Designed for Quick and Easy Installation
- No Drilling
- Easy Maintenance with New Slide-In Lighting Design
- Continuous Lighting
- Meets all IBC Code Standards
- Complete System with Starphire Glass or Shoerail® Illumination for Contractor Glass Supply

## What's Inside an ILLUMIGLASS® System?

### New slide-in lighting design

makes replacing your LED strip as easy as changing a light bulb! Simply slide out the old LED strip and slide in the new. Now you're set for another 100,000 hours!
